

MY “EMOOJI” DESIGN!

Today is NATIONAL EMOJI DAY!

“Emoji” a Japanese expression which when translated roughly means “picture word”. It was invented by Shigetaka Kurita in 1990.

In 2014, Emojipedia founder Jeremy Burge created World Emoji Day, and you can visit www.emojipedia.org to see all the new emojis created every year!

You can also build your own emoji at:
www.emoji-maker.com.

Your challenge is to create your own “Delicious Dairy” emoji! Whether it’s using cows, goats, a block of cheese, chocolate milk or any other dairy symbol, do your best to draw your own unique design to celebrate dairy goodness!
